LAND USE COMMITTEE

VISION

The Land Use Vision for CMAP is to:

- promote coordinated, transparent and viable redevelopment and preservation in the region
- support regional collaboration and partnerships that benefits all stakeholders and exemplifies a collection of best practices

COMMITTEE CHARGE

The charge to this Committee is to provide advisory input to the CMAP Board on proposed regional plans, projects and policies by:

- providing the Board with guidance and expertise that cultivates an environment where land use and transportation planning can be integrated and accomplished cooperatively.
- encouraging local political jurisdictions to understand that their planning facilitation and decisions should be viewed in a broader context that may have ramifications influencing and affecting the larger region.
- providing appropriate modeling that identifies functional links between land use and transportation in the development of a comprehensive plan.
- advocating an educational process that underscores the importance and interdependency of regional issues incumbent to the successful integration of land use and transportation planning such as environment, natural resources, water, economic development, public health, private and public education, historical preservation.
- developing a common framework mobilizing the community through coordinated leadership and a common vision.
- implementing, monitoring and evaluating research-based programs and practices designed to achieve the desired outcomes as identified by the Committee.
